

## It is Essential to Submit Your Blog

Bloggging is getting to be one of the most popular things to do on the internet these days. Most people really have no idea how to have a successful blog. If you do not really care about being found by others then not knowing what you are doing will pose no problem. On the other hand, lots of people are trying to make money via their blog. If you are concerned about your blog being found by the search engines then you will need to submit your blog to the major search engines and blog directories.

If you can spare some cash you can submit your blog to paid blog directories. The search engines trust paid blog directories. Paid sites require that blogs meet certain criteria before they allow them on their paid sites. Your blog will be in with the best blogs on the internet if you can pay to submit your blogs to these paid sites.

Submit your blog to the popular search engines like google, Yahoo and MSN as well. If you want it found by others you will definitely need to submit your blog to the major search engines. There are millions of blogs on the internet so you will be competing for traffic. You should know which directories to submit your blog to so that it is categorized correctly. When you submit your blog to the blog directory it is very similar to submitting a website. There are few differences however. When you submit your blog the right way it will get indexed quicker.

Before you submit your blog you should have a sitemap too. This is especially important when you submit your blog to google. And we all know how important google is when it comes to getting traffic. Once indexed, you should check the sitemap regularly and keep it updated for google. If you have a Wordpress blog you can install a sitemap plugin. This way the plugin will update the sitemap automatically. If do not have a wordpress blog you can use google tools and make your own sitemap.

Use a site like Feed Shot to submit your blog to the major blog directories. You will need an account to submit your blog to google and yahoo. MSN requires certain things that yahoo and google do not require when you submit your blog to them. There are various articles online that can tell you how to submit your blog step by step.
