

## Stress Free Bridal Shower Invitations

Bridal shower invitations are essential to setting the tone for the bridal shower you are throwing. They need to be just right, and with the bridal shower coming up fast, they need to be done quickly and stress free. Before you spend money or valuable time on picking out invitations, take a moment to review the best and most efficient way to choose and send invitations to your friends bridal shower.

First, pick out a design for the [bridal shower invitations](#). Going online is the best way to do this; online stores let you search their catalogs by style, theme, or color, and you do not need to waste time driving from store to store and getting clerks to help you with the sample books. If you know what your friends wedding invitations look like, you may not even need to choose a new design, since many wedding invitation designs come with a version designed especially for bridal shower invitations.

After you have a design, the next step is to create the wording. The template will probably already include the usual information, like the brides name, the party location, time, and date, and the RSVP number and email address, but remember to use the extra lines to add details like whether the shower is a surprise, what the bridal showers theme is, where the bride is registered, whether the party is formal or casual, the bridal shower hosts name, and the URL of the bridal shower web page. Resist the urge to get cute with the wording. You have seen horrible jokes on invitations before, so you know how easy it is for humor to go astray.

Pick out matching envelopes and little touches like envelope seals or enclosures. If you want to skip the step of printing and applying return labels, have the return address printed on the envelopes. When your invitation package is complete, choose how quickly you want the invitations shipped to you. Because losing invitations in the mail is always a worry, whether or not you go with an online store, ordering invitations sooner rather than later is always preferable. If the party plans are in flux, rather than waiting until the last minute to buy invitations, consider sending out invitations earlier and putting up a web page for the party with the most up to date information.

When you are done, click the order button and wait a few days. Because online stationers print bridal shower invitations rapidly, you may receive the package within the week. Put the invitations together, print and apply the address labels, and drop the finished invitations in the mailbox. You're done! Now you can cross that off your list and move on to planning a fantastic and memorable bridal shower.
